Monday-26<sup>th</sup> May 2025

**Monday-26<sup>th</sup> May 2025**

**a. Setting up a GitHub account**

Created a GitHub account to maintain a Lab record throughout the internship period.

Created a repository [GayathriSP24/Summer-Internship-2025: Summer Internship-2025 May 26- July 21](#) to enter daily records.

**b. Setting up the Linux Platform**

Tried setting up MobaXterm, which seemed to have trouble functioning on the PC.

Later, with a friend's help, I was able to set up WSL and Ubuntu, saving the day. Did ran some random commands to see if it is working. So, at the end of the day, I have learnt that WSL is already in our Windows 10 and 11 PC, but by turning it on and installing Ubuntu you can run a Linux terminal on a Windows PC.
